

A CCL International Project

Dear Co2Bit (Co2 or Co2B) Holder,

Thank you for your continued support and vital role in advancing the Co2Bit Technologies eco-system. The commitment, insight, and enthusiasm of holders such as yourself have shaped the ongoing innovation and growth of our platform. This offer is extended specifically to you in appreciation of your unique contribution, and should not be shared outside this select informed group.

We are pleased to announce an expanded opportunity for you to convert your holdings with two distinct options:

Option 1: Convert Co2 to CCL

- **Rate:** Exchange 75 Co2 tokens for 1 CCL token.
- **Notes:** This offer does not apply to awards made to Lenders, Nation States, or NGOs.

Option 2: Trade Co2B plus ETH for CCL

- **Rate:** Exchange 1 Co2B **plus 0.00025 ETH** for each CCL token.
- **Calculation:** Since $37.5 \text{ Co2} = 1 \text{ Co2B}$ and the standard exchange is 75 Co2 for 1 CCL, trading Co2B for CCL at this rate grants you **double the CCL tokens** for the equivalent number of Co2 tokens, plus a small ETH addition per CCL.
- **Example:** $1 \text{ Co2B} + 0.00025 \text{ ETH}$ yields 1 CCL, while under the regular ratio you would require 75 Co2 for 1 CCL (with $37.5 \text{ Co2} = 1 \text{ Co2B}$, your Co2B translates into twice as many CCL as compared to exchanging Co2 directly). **Why This Is a Bargain:**

Currently, CCL tokens are valued at approximately **\$14 each**. The Co2B + ETH option essentially provides **twice the CCLs for your value**, maximizing your benefit under current market conditions.

Step-by-Step Conversion Procedure

1. Identify Your Wallet:

- Submit the wallet address holding your Co2 or Co2B tokens designated for exchange.

2. Specify Conversion Amount:

- Clearly indicate how many Co2 or Co2B tokens you wish to convert and which option you are selecting.

3. Prepare Transaction:

- For Co2: Send the selected number of Co2 tokens to the deposit wallet: **0xE9EBc88b1D0e1B15c388544a705C06Cc193f3720**.
- For Co2B + ETH: Send the desired number of Co2B tokens **plus 0.00025 ETH per Co2B being exchanged** to the same deposit wallet.

4. Email Confirmation:

- Email your full name, physical address, preferred contact email, wallet details, conversion amount, and a copy of government-issued ID to Co2toCCL@cclx.ai. Use your full name as the subject.

5. Token Delivery:

- Your CCL tokens will be returned to your original sending wallet unless you request custody for 90-day CCLX conversion periods (which may minimize ETH gas fees). Please state your preference clearly in your email.

6. Additional Notes:

- CCL tokens are not publicly traded but may be converted to CCLX every 90 days, at a maximum of 10 per conversion window. CCLX is currently trading at about **\$14 per unit** (current platforms: SMARDEX, Uniswap).
- You may need to purchase additional ETH to cover transaction and conversion fees.

Comparative Table: Value of Conversion Options

Option	Tokens Needed for 1 CCL	Value Received (CCL)	ETH Required	Effective Bonus
Convert Co2	75 Co2	1	Gas Only	Standard
Convert Co2B + ETH	1 Co2B + 0.00025 ETH	1	0.00025 per CCL	Double CCL per Co2B

Note: As 37.5 Co2 = 1 Co2B, exchanging at the Co2B + ETH rate secures you 2 CCL for every 75 Co2, versus just 1 CCL in Option 1. With CCL valued at ~\$14 each, the Co2B + ETH path offers significant extra value to holders.

If you have any questions, please reach out to Support@CCLX.ai.

Sincerely,
Support@CCLX.ai
